## ***ORGANOCIDE 3-in-1 GARDEN SPRAY - 2.5 Gallon Concentrate***

***Read entire label before use. Use only in accordance with label instructions.***

**Garden Insects:** Organocide™ 3-in-1 Spray kills the eggs, larvae, and nymphs of insects and the adult stages of over 25 soft bodied insects including (but not limited to) aphids, Hemlock wooly adelgid, leafrollers, mealy bugs, thrips and white-flies.

**Spider Mites:** Including, (but not limited to) European Red Mite, Spruce Mite, Maple Mite, Southern Red Mite, Two Spotted Mite, Six Spotted Mite, Texas Citrus Mite and Rust Mite.

**Scale Insects:** Including (but not limited to) Sago Palm Scale, Magnolia Scale, Oleander Scale, San Jose Scale, Hemlock Wooly Adelgid and Euonymus Scale.

**Diseases:** Organocide™ 3-in-1 Spray controls certain fungal diseases such as (but not limited to) powdery mildew, downy mildew, black spot on roses, helminthosporium and greasy spot on citrus.

**Target Plants:** Vegetables, fruits, nuts, vine crops, herbs, spices, ornamentals, greenhouse crops, turfgrass, landscape plants, bulbs, flowers and field crops. Not For Indoor Use.

**Plant Compatibility:** When used as directed, Organocide™ 3-in-1 Spray has an unusually high degree of safety to most plants. However, some plants in the Euphorbia family (Crown of Thorns, Poinsettia) have shown some sensitivity. If in doubt, test first on a small area of foliage to determine plant safety.

**Directions for Use (not recommended for indoor use):** Dilute 2 oz. of Organocide™ 3-in-1 Spray per gallon of water. Once diluted, shake occasionally to prevent separation of Organocide™ 3-in-1 Spray and water. Use a sprayer that will put out a fine spray. If spraying on severely stressed or damaged plants, consider using a lower rate such as 1 oz. per gallon to avoid adding additional stress. For best results, spray in the early morning. A single application is normally enough for control. For normal maintenance, spray once per month or as needed to spot treat areas. For severe problems, make two applications 3 days apart. Retreat in 7 days if problem persists.

**Enfermedades:** El Organocide™ 3-in-1 Spray controla ciertas enfermedades causadas por hongos como (sin estar limitado a) roya polvorienta, roya negra, machas negras en las rosas, helmintosporium y manchas de grasa en los cítricos.

**Plantas Objetivo:** Vegetales, frutas, nueces, vides, hierbas, especias, plantas ornamentales, plantas de invernadero, grama, plantas decorativas, bulbos, flores y cultivos de campo. No es para usar en interiores.

**Compatibilidad con las Plantas:** Cuando se usa según las instrucciones, el Organocide™ 3-in-1 Spray ofrece un alto grado de seguridad para la mayoría de las plantas que es poco común. Sin embargo, algunas plantas de la familia Euphorbiaceae (como corona de espinas y flor de pascua o poinsettia) han demostrado tener cierta sensibilidad al mismo. Si tiene alguna duda, pruebe primero en una pequeña área del follaje para determinar la seguridad específica con la planta.

**Instrucciones de Uso (no se recomienda para usar en interiores):** Diluya 2 onzas de Organocide™ 3-in-1 Spray por cada galón de agua. Una vez diluido, agite ocasionalmente para evitar que el Organocide™ 3-in-1 Spray y el agua se separen. Use un rociador que emita un rocío fino. Si lo rocía sobre plantas sujetas a gran estrés o gravemente dañadas, considere usar una menor proporción como por ejemplo 1 oz. por galón para evitar que las plantas queden sujetas a estrés adicional. Para mejores resultados, rocíe en la mañana temprano. Por lo general, una única aplicación es suficiente para el control. Para el mantenimiento regular, rocíe una vez al mes, o tal como sea necesario para tratar las áreas con manchas. Cuando se trate de un problema grave, aplíquelo dos veces, dejando tres días de por medio entre las aplicaciones. Si el problema persiste, aplique de nuevo a los 7 días.
